REDEFINE LUXURY, CAPTURE EXCEPTIONAL
MARKET POTENTIAL, AND EMBARK ON A
JOURNEY TO 1,000 KEYS AND BEYOND

For hotelier extraordinaire Jimmy Mistry, a pioneering journey began 15 years ago with an ambitious concept: to transform an unremarkable parcel of land into an experiential hospitality epicenter, blending adventure and luxury. This vision reshaped not just the property but the Indian hospitality landscape, establishing Mistry as an unmatched leader in experiential hospitality.

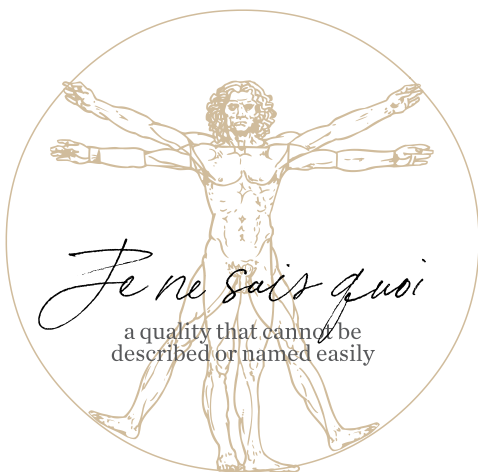

Guided by his ingenuity, Della Resorts transformed Lonavala from a simple hill station into a vibrant destination for both adventure-seekers and luxury travelers. “When I first envisioned Della Resorts,” Mistry recalls, “my ambition was straightforward yet grand: to redefine hospitality. I wanted Della Resorts to be the hallmark of India’s first truly experiential luxury destination.”

With a workforce of over 1,750 dedicated professionals, Della Resorts has evolved into a fully backward-integrated operation, overseeing every stage from concept to design, execution to operation. Today, Della is not only a hospitality and adventure park operator but also a real estate developer, turnkey design-build expert, and manufacturer of luxury interior products.

As you read on, discover the journey of Jimmy Mistry and his team at Della, as they position themselves as the definitive leader in crafting immersive lifestyle experiences and transforming the nation’s hospitality landscape on an unprecedented scale.
